
ARgENTUM

Discovering the *beauty* in balance

After many years of research in the field of dermocosmetics, ARgENTUM created a *patented fusion* of two active ingredients, Silver Hydrosol & DNA HP. The result is a skincare collection from *natural origins* that delivers an unsurpassed *sensory experience*.

Beauty travels far below the first layer of your skin, but the surface is an excellent place to start. Created using the finest ingredients from natural origins, ARgENTUM's skincare collection invites you to take a moment to connect with yourself – to fall in love with the person in the mirror and find beauty in balance.

Joy Isaacs
Founder & CEO

Founded in 2012 in London after Joy Isaacs woke from a dream with a clear vision to use the power of silver in skincare, ARgENTUM's journey began. It's mission? To nourish your skin with exquisite potions, lotions and fragrances backed by science.

Combining their award-winning patented formula with the psychology of beauty is where the journey began, and it's where you'll discover ARgENTUM today after introducing their collection of alcohol-free archetype fragrances that are kind to your skin and hair. By embracing your lives and the energies you attract, you can aspire for that beautiful centre space, a place where opposites align and become one. Let your intuition guide you.
